David Navecky
Docket no. FD35952

I am sending this letter in opposition to the proposed GLB railway.

My name is Keri Perkins
623 e 7th st
Momence IL 60954

The proposed railway will severely impact my life and those of the farmers and the township. Cause of increased rail traffic. I live on a railroad access road and traffic has increased as of late and will only increase with this railway. The chances of railway accidents will increase and we have already had 2 accidents at the crossing by me. Maintenance on the railway will be difficult for the railroad to maintain as it is already.

Please listen to the hundreds of people opposing this rail yard.

A handwritten signature in black ink, appearing to read "Keri Perkins", with a long, sweeping horizontal line extending to the right.
