Transcript:

This is in regards to the STB Docket No. 35087. I would like to address this to Ms Johnson-Ball. I would Please, please urge the turn down or to say no to the CN. This is a tremendous tragedy to the area. Saftey issue for our children as there is a lot of bus transportation that has to cross many many of the railroads block of 3 different main areas of our town. Transportation to the city on the metro lines theres no way to get around the town or the busses to transport the children to and from the school from the areas without crossing these tracks a couple hundred times per day. I would urge you please to think, think and not approve the CN and to say no. It is also a financial issue as far as to pay for these damages or adjustments to the area that us as tax payers in this time of economic distress especially can not afford this. So please I urge you to say no to the CN for not acquisitioning the ENJ lines. Thank you so much. Bye bye.
