

Dear Dave Navecky, Docket No. FD35952
First of all Thank you for taking time
for this letter of concern.

Our Century Farm is on the projected
Great Lakes Basin Rail Line route.

This rail line will take 24 acres of the
one of a kind farmland in the U.S. and possible
the world per mile.

There are abandoned rails that run as
bike trails in Wis. & Ill. which would be a
much more sensible use of farmland, rather
than taking more land.

Toxic concerns are a major concern for
the city of Chicago, so run this rail across
our wells and underground water supply with
toxic, flammable, and corrosive materials. It is
as if a smaller number of us land owners
should suffer the risk and inconvenience for
financial gain of these investors.

Pipelines are made to carry oil and such
products and can still be farmed on. We have
pipelines that run thru our county and farming
continues.

"The use of 'emancipate domain' when something
is not for sale is stealing. Stealing is one of the
10 commandments. Myself and the people who live along
the projected routes do not want to sell our land or
have it taken from us!

Thank you,
Barbara Ann ...
