Message:

I oppose the CNRR acquisition of the EJE RR as it will greatly inhibit transportation in and around the Barrington, Il community. The village is already dissected by a commuter train line and two major roadways that carry truck as well as automobile traffic. Currently, 34 trains run through the village during a weekday...16 between 5:00-9:00 AM, 6 during midday, and another 12 between 5:20-7:20 PM. The increase the CNRR would bring is intolerable. Also the fire and police services are located on the east side of the village and have to cross an EJE set of tracks to get to the local hospital as well as many other areas of the community. A constant barrage of train interruption provides a significant health risk and danger to the community. I am adamantly opposed to this acquisition.
