Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

Date: Aug. 27, 2008

As a mother of 3 school-age children, one of whom drives himself to school, I am very afraid of the negative impact this proposed acquisition will have on my children's ability to get to and from school in a timely fashion. I am also greatly offended that you would put your profits ahead of our community's ability to respond to emergencies - ambulance and fire. There are communities which have grown up around busy train schedules and have the infrastructure in place to deal with long, frequent trains running through them. Barrington is not equipped to deal with this kind of schedule, and unless you are going to build over-passes at every crossing in and around Barrington, I urge you to reject this acquisition and increase of train traffic thru Barrington.
