supporting the Willow Route for the
Alaska Rail Road line extension to
Port MacKenzie

FRIENDS OF THE LAKES

YOU ONLY HAVE 10 BE 10 AN ALASKA RESIDENT TO Sign

We, the undersigned, support Corridor 3 Willow Route of the Alaska Railroad - Port MacKenzie Rail Extension Project, Financial Docket No. 35095,

We support this route as it is consistent with the Mat-Su Comprehensive Economic Development Strategy (June 2006 Update), the Mat-Su Borough Long-Range Transportation Plan and the Matanuska-Susitna Borough Rail Corridor Study, June 2003. These plans are in the best financial interest of the citizens of the Mat-Su Borough and the State of Alaska.

The connector that is the least disruptive to humans, animals and the environment is Corridor 3 - Willow Route.

Abstract—The purpose of this study was to determine the effect of a 10-week training program on the heart rate (HR) and heart rate reserve (HRR) of sedentary middle-aged men. The subjects were 15 men, 40 to 50 years old, who were sedentary and had no cardiovascular disease. They were randomly assigned to a 10-week training program or a control group. The training group performed a 10-week program of aerobic exercise, 3 times per week, for 30 minutes at 70% of their maximum HR. The control group did not exercise. The HR and HRR were measured at rest and during a maximal exercise test at baseline and after 10 weeks. The results showed that the training group had a significant decrease in HR at rest and during maximal exercise, and a significant increase in HRR at rest and during maximal exercise, compared to the control group. These results suggest that a 10-week training program can improve the cardiovascular fitness of sedentary middle-aged men.

FRIENDS OF THE LAKES

We, the undersigned, support Corridor 3 Willow Route of the Alaska Railroad - Port MacKenzie Rail Extension Project, Financial Docket No. 35095,

We support this route as it is consistent with the Mat-Su Comprehensive Economic Development Strategy (June 2006 Update), the Mat-Su Borough Long-Range Transportation Plan and the Matanuska-Susitna Borough Rail Corridor Study, June 2003. These plans are in the best financial interest of the citizens of the Mat-Su Borough and the State of Alaska.

The connector that is the least disruptive to humans, animals and the environment is Corridor 3 - Willow Route.

Either of the Houston Routes would severely disrupt Big Lake area residents. Please route this thing through government land to the west, from Willow, as far as possible from developed areas?!

EMAIL ADDRESS : rclement@gci.net

I strongly suggest and hope that you do not support Route 1. This route goes through the center of the Big Lake recreational and home owners area. There is no sensible reason that will support any passenger rail service to the area. The area immediately to the west and north of Big Lake, Horse Shoe, West and Hour Glass Lakes are by far the least desirable soil for railroad construction in the swamps and bogs, and the largest area of undisturbed moose habitat of the routes selected. If service to Wasilla is the desire, Route 2 is the best, but if the final service is from the Point McKenzie Port to the interior, as it is now, and connecting to the main line, the only and best option which includes the least impact to the population, communities, moose and other wildlife habitat, and least conflict with the environment, yet still giving a remote setting - is Route 3, located to the west of the Red Shirt recreational area. It should be noted that this area (West of Red Shirt) has been studied in the past as having a large coal reserve at a very shallow depth and with the railroad it would be in a idea location for transportation of this resource when it is developed in the future.

Subject FW: Railroad in Big Lake

E1 - 6771

FRIENDS OF THE LAKES

DOCKET # 35095

We, the undersigned, support Corridor 3 Willow Route of the Alaska Railroad - Port MacKenzie Rail Extension Project, Financial Docket No. 35095,

We support this route as it is consistent with the Mat-Su Comprehensive Economic Development Strategy (June 2006 Update), the Mat-Su Borough Long-Range Transportation Plan and the Matanuska-Susitna Borough Rail Corridor Study, June 2003. These plans are in the best financial interest of the citizens of the Mat-Su Borough and the State of Alaska.

The connector that is the least disruptive to humans, animals and the environment is Corridor 3 - Willow Route.

FRIENDS OF THE LAKES

We, the undersigned, support Corridor 3 Willow Route of the Alaska Railroad - Port MacKenzie Rail Extension Project, Financial Docket No. 35095,

We support this route as it is consistent with the Mat-Su Comprehensive Economic Development Strategy (June 2006 Update), the Mat-Su Borough Long-Range Transportation Plan and the Matanuska-Susitna Borough Rail Corridor Study, June 2003. These plans are in the best financial interest of the citizens of the Mat-Su Borough and the State of Alaska.

The connector that is the least disruptive to humans, animals and the environment is Corridor 3 - Willow Route.
