Re: STB Finance Docket No. 34284

Dear Sirs:

Please note that I am not in favor of the Vulcan quarry or the railroad. In the event that a railroad must be built, I am only in favor of the most easterly route, since it creates less damage and destruction to our historical and archaeological assets and resources in my hometown.

In making your decision, please keep in mind the significant historical background of this quiet and peaceful community. Any industry that must move into this neighborhood should be conscience of safety and sensitive to the rich history of the area

Thank you very much.

Sincerely,

Necey Schulte
