Ref: STB Finance Docket No. 35087

Dear Ms. Phillis Johnson-Ball,

I am writing in opposition to the proposed acquisition of the
EJ & E railway by the Canadian National Railway.

I am against this proposal because it would greatly increase train traffic in the
Lincoln-Way area. There would be more trains, longer trains, larger engines and
more hazardous materials than currently travel through our community. Tax
payers like myself will have to pay higher taxes to support a traffic nuisance and
safety hazard to our community life.

I am speaking up on this issue and saying that this something our community
does NOT need or want.

This proposal must be stopped.

Sincerely,

A handwritten signature in cursive script that reads "Susan Quattrochi-Tubin".
