Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

STB Finance Docket No. 35087

Date: 8/31/08

Comments must be submitted by September 30, 2008.

1. I am a property owner in Barrington & am very concerned about the negative impact the increased train traffic will have on housing values
2. 911 Response calls will certainly be negatively impacted. The increased time to get patients to Good Shepherd Hospital will cost lives.
3. Businesses in Barrington will suffer because nobody will be able to get to them
4. Traffic in Barrington is already a problem. Adding backup at train crossings will stop people from coming into or going thru town & could cause the demise of a wonderful place to live
5. School children on school buses will have much longer rides to get to school or get home when they have to stop for trains at crossings
6. Homes are in danger when a fire breaks out and the fire dept has to spend precious minutes waiting to get across a train crossing
7. I am concerned about CN's safety record & by the fact that our community could suffer a potentially lethal haz mat spill from a freight car going thru our town.

YOUR INPUT IS IMPORTANT!
