Transcript:

I am voicing my opposition to the CN acquisition of the EJ&E railroads. The number of trains per day, the increase, as well as the increase in the feet in length of the trains, is of the upmost concern. It will cause significant vehicle delays, our railroads are already congested. It will also cause safety issues at the crossings with the emergency response crews: police, fire dept, etc. Also, there are a number of people who live in neighboring towns, trying to get through town it's going to inconvenience them as well.
