Draft Environmental Impact Statement for the  
Proposed Canadian National Railway Company  
Acquisition of the Elgin, Joliet and Eastern Railway  
Company

STB Finance Docket No. 35087

Date: 8/27/2008

Comments must be submitted by September 30, 2008.

I DO NOT Agree with this purchase. After this meeting tonight I am even more annoyed with this purchase & the study which was done. We currently have a huge problem with traffic delays because of Trains which has caused several business to NOT locate here. Hough Street, Lake Cook Rd & RT 14 get hugely backed up during Rush Hour. This study DOES NOT tell us what will happen during these hours. The study takes a 24 hour time period into affect & does NOT show Rush Hour. Several years ago they did a study for a bypass for Barrington because of the current traffic. I have a heart problem & might need to be rushed to Good Shepard Hospital this would be very difficult & could take a long time because I live South of the intersection in Barrington & I could DIE waiting for a train to go thru. I understand that since Good Shepard Hospital is just over 2 miles away the study assumes that there are alternate routes BUT IN Barrington there IS NO ALTERNATE ROUTES. WHY Do we need to change the current routes. I DON'T like their safety record. I bought here knowing there were few trains going thru Barrington. Why are we selling America to Foreign companies. Can you tell us what will be the delays during Rush hours & the longest we need to wait. Will the previous Barrington Bypass study be used as a resource for traffic

## YOUR INPUT IS IMPORTANT!
