1. We brought here because the Real Estate told us there were only 2 trains a day.
2. There are 18 trains daily that cause traffic problems. At first there were no gates now there are but the trains over blow their whistles I think almost deliberately. Noise & pollution a high enough already. They don't even feel the tracks on the street where your car has to literally stop to cross the tracks without blowing a tire or denting the rims.
3. 42 trains a day would cause horrific traffic problems. Curtail business activities including a large mall. What about school bus routes or derailments near housing.
4. The federal government officials will see outrage.
5. My foundation is cracking. Wildlife is changing.
6. This will cause depreciation of our properties.
7. I'm all for progress but not backward progress especially caused by a firm outside of our country.
8. For once can't officials think of their constituents instead of money.
