

Six County Rail project
Jeffrey Irwin to: genevievefields

12/10/2014 01:32 PM

Ms. Fields,

Hello. We spoke over the phone a couple of months ago about a proposed railroad project in the central Utah area. I want to thank you for taking the time to talk with me then and to apologize for not sending follow-up information sooner. Please find attached here a copy of a letter sent to Chairperson Greymountain in which we invite your tribe to participate in consultation to address the treatment of impacts from railroad construction to cultural resources, including archaeological sites. In addition to the letter, the following information is included: project area maps, a list of known sites that may be affected by the project, and a description of the Area of Potential Effects.

We are in the process of developing a Programmatic Agreement, in accordance with 36 CFR 800, federal regulations implementing Section 106 of the National Historic Preservation Act. This agreement will outline how we will identify any other cultural resources where required and how we will ensure that impacts to sites are mitigated. I will send a copy of this draft agreement to you in the near future for your consideration.

Please feel free to contact me at any time with questions or concerns regarding this project and our efforts to address cultural resources.

Regards,
