Transcript:

I wanted to leave a comment relative to the CN proposed purchase of the E&J line. I think it's preposterous that we would allow CN, whether a foreign company or not, to come in and propose something like this, sue us trying to get it done before the accurate assessments are made, and publically stating that no matter what the mitigation is, they're only going to pay "X", they need to pay all mitigation, and I mean all, there should be no taxpayer money to pay for any mitigation relative to safety, environmental, noise, etc., etc. Thank you.
