I'd like to speak in opposition to the acquisition of the J by the Canadian National. The elgin, Joliet, and Eastern track seperates the town of West Chicago from north to south and seperates the west side from the east side and it makes the response of emergency vehicles a nightmare at times. So with the increased traffic that would come from the Canadian National, that is just going to increase the problems ten or twentyfold if I believe what I read in the paper about the amount of trains that is going to come down that track. Couple that with the fact that it crosses the Union Pacific line right in the heart of town, when the CN isn't going by, the UP will be going by so our town will be paralyzed and the life safety factor of the residents is going to be greatly compromised. I urge you to do everything possible to deny their purchase. Thank you
