Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

Date: 8/27/08

Investigate alternatives - none were discussed in the DEIS.

Why was CREATE abandoned and the impact to this plan not addressed?

Was the input to your report verified independently?

Was the impact to communities beyond the EHE are studied?

I'm disappointed greatly that a taxpayer funded organization did not at least do an adequate job on this impact study. This report is laughable and its assumptions, and therefore, conclusions faulty.

[illegible]

Joliet
