

080210 Meikma

Allen Meikma. 11358 Lavender Lane, Frankfort IL 60423. I want to say that I think this is a horrible idea. I live about one block from those railroad tracks and there is countless subdivisions, at least in my town, that have been built along those tracks before anybody knew that something like this would happen. These are all highly traveled areas. They cut through highly traveled roads. This railway actually splits my town actually about in half and to have 30 trains a day running on this thing is going to kill this town. It's just ridiculous. The property values are going to be negatively impacted. The schools are going to be negatively impacted trying to get back and forth, north and South through this town across the tracks is just going to be negatively impacted. I mean 6 trains is what we have now and you hear those whistles and we understood that when we bought the property. 30 trains a day to be whistling through her and like rolling through with twice the number of cars and twice the number of engines. .. It's ridiculous. I am absolutely opposed to this. Thank you.
