JOHN P. PATELLI
CHIEF REGULATORY COUNSEL

Admitted in FL & CO

October 21, 2022

Cynthia Brown, Chief
Section of Administration
Office of Proceedings
Surface Transportation Board
395 E Street SW
Washington, DC 20423

Re: Docket No. EP 770 (Sub-No. 1), *Urgent Issues in Freight Rail Service—Railroad Reporting*

Dear Ms. Brown:

Pursuant to the Board's May 6, 2022 order in the above-captioned proceeding, enclosed please find CSX Transportation Inc.'s ("CSXT") bi-weekly service progress report providing updates on each of the key service performance indicators identified in CSXT's revised service recovery plan for the week ended October 14, 2022.

CSXT continues to exceed 5 of its 6 key service performance targets. The sole unmet target, Industry Spot and Pull (STB Metric 5), recovered to 84% and is once again close to CSXT's 85% goal. Terminal dwell continued its consistent improvement, and is now below 21 hours. Manifest OTA within 24 hours (STB Metric 7(i)) climbed to 85%. Velocity, Unit Train OTA within 24 hours (STB metric 7(ii)) and Intermodal OTA within 24 hours (STB metric 7(iii)) all remain well above target levels.

Also enclosed is data regarding the daily average number of employees not available for service and the cause for such unavailability, as directed by the Board's June 13, 2022 order. CSXT's average daily active T&E population was roughly stable for the week ended October 14. Subject to an unexpected increase in leaves, absences, or mark-up times, we expect to resume upward progress in the coming weeks, as the conductors from our larger summer hiring classes complete training and enter the active population.

Sincerely,

John P. Patelli
