Environmental Impact Statement

Comment Form

Draft Environmental Impact Statement for the
Proposed Canadian National Railway Company
Acquisition of the Elgin, Joliet and Eastern Railway
Company

STB Finance Docket No. 35087

Date: 8-27-08

Comments must be submitted by September 30, 2008.

I oppose the proposed acquisition of EJ&E tracks by Canadian National. Such a large increase in rail traffic at grade-level crossings is a safety hazard for pedestrians + residents. Increased emergency response times, pollution, accidents, and commuting times will make the quality of living in Barrington much lower than it is today. Separate grade crossings would need to be paid for by CN. The fact that one major crossing is so near a high school where so many students walk to and from each day is especially disturbing. Accidents are bound to happen with so many trains. The infrastructure in Barrington was never meant to handle this volume of traffic.

YOUR INPUT IS IMPORTANT!
