STB Finance Docket No. 35087

8/27/08

~~For~~ Every day I cross the rail road tracks 8 times a day on the way to and from Home Depot. At present, on average get stopped 4-6 times a week by trains on Cuba or Elia Rd. if the rail traffic were to increase my travel times would increase 2 or 3 times. At that point I would most likely have to quit my job at Home Depot or relocate to a more convenient location in order not to spend my life on the road.
