Message:

I live just outside the Mundelein area and cross the E J & E rail line twice daily for my work commute. Like many thousands of citizens living in Lake and McHenry County, I am concerned about how such a drastic increase in rail traffic would affect this area. To go from 4 trains a day to 20, some of which would be up to 2 miles long, seems like a step that should be considered long and hard. There are many at-grade crossings of major traffic arteries that would gridlock already badly congested roads. It seems that major modifications should take place before we allow Canadian National to have such a negative impact on so many peoples lives. I have lived in this area almost my entire life and to me this looks like a devastating event.
