Environmental Impact Statement

Comment Form

Draft Environmental Impact Statement for the
Proposed Canadian National Railway Company
Acquisition of the Elgin, Joliet and Eastern Railway
Company

STB Finance Docket No. 35087

Date: 8-27-08

Comments must be submitted by September 30, 2008.

To Whom It May Concern:

I am writing with regards to the proposed CN acquisition & its impact on our community. The increased traffic due to the increased number of trains not only causes over crowding of roads, consequently excessive traffic but most importantly, it compromises the safety of our community. The proposed increased railway congestion poses a threat to our lives. If public safety, including police, fire and ambulance are detained due to access from blocked traffic from excessive train traffic lives are at risk. Most importantly if our children's safety is compromised because public safety cannot reach them in case of an emergency at school - this is not acceptable and in-humane. I urge you to consider the lives which will be put at risk if the proposed railway increased is passed. Please, please, please do not put our children's life at stake!

YOUR INPUT IS IMPORTANT!
