We can not believe this plan may go through! It would affect 198 miles of suburbs with the same problem. Too much traffic, too much noise, failure for buses and emergency vehicles to reach their destination. Tax payers and the State are spending large amounts of money to relieve traffic on main roads and highways by widening and open tolling. This would be a BIG step back for all of us in these areas. We thought these track areas were were going to be used for commuters to link with other rails. Can your decision be about the people for once and not about the money or the business??!!
