Draft Environmental Impact Statement for the
Proposed Canadian National Railway Company
Acquisition of the Elgin, Joliet and Eastern Railway
Company

STB Finance Docket No. 35087

Date: 8/27/08

Comments must be submitted by September 30, 2008.

The largest problem we face with the
proposed acquisition is the increased danger
to our families. Slower first responder times, increased
risk of hazardous spills, increased train flow
with our children trying to get to school
all are reasons that will only get worse.
not to mention the value of our homes.
Many people in this town have invested
thousands of money in their property to make
this a better town to live - this will
crush everything we've worked for. This
can not happen to our town.
