Message:

First of all, I am in favor of the EJ&E purchase. After living in Algonquin & Huntley for some 33 years I have learned the the people of Barrington & Barrington Hill are a bunch of cry babies. Everything must be their way. To me the railroad has to go somewhere. Besides, what would this country be like if nobody wanted anything in their back yard? A few years back, Barrington Hill's closed off Spring Creek Rd.. They didn't want the people of Algonquin to cut through there village. Now the road is open BUT, if your going north on Spring Creek, when you get to Heagars Bend Rd., you must make a right turn. You can not go straight. Again, Barrington Hill's does not want people from Algonquin to go throught their village. And believe me, given the slightest chance, their police WILL give you a ticket. So for me, let the EJ&E buy the railroad and let them run their train's . If you have any gut's, you will tell the people of Barrington & Barrington Hill's to stop crying and grow up.
