

5-12-16

Dear Dave Navecky,

I am writing in regards to the Great Lakes Basin Railroad project NO. FD-35952 DOCKET

I am opposed to this for many reasons but especially because of my concern over what it may be hauling, such as hazardous material & also because of causing problems with the soil. I live close to where the train would be going by and it makes me very nervous to have this so close to my home. If there was a derailment for any reason, this could cause

2.

many problems for myself and my neighbors.

Thank you for your time to read this letter and to consider blocking this railroad project.
