Comment Form

Draft Environmental Impact Statement for the
Proposed Canadian National Railway Company
Acquisition of the Elgin, Joliet and Eastern Railway
Company

STB Finance Docket No. 35087

Date: 8/27/08

Comments must be submitted by September 30, 2008.

We are concerned about legitimacy of the impact study. We are concerned about the effect on law enforcement as well as emergency response. We are concerned about traffic congestion in general as well as the increased amount of time our students will have to spend on the bus to get to school. Currently the maximum amount of time is set at no longer than 45 minutes on the bus 1 way. Many students are already at the maximum & this can only increase w/ increased traffic. The increased traffic will also cause increased emissions in the area as vehicles wait for the trains to pass. I fear that it will also impact people's ability to get to the Metra station as well as to businesses around town. This will cause our town to lose business & lose its tax revenue. We are concerned about the resultant tax impact to bear the cost of loss of retail revenue.

YOUR INPUT IS IMPORTANT!
