Message:

As a resident of Naperville I am VERY opposed to allowing the Canadian National railway to acquire the Elgin, Joliet and Eastern Railroad. The significant increase in railway traffic would negativley impact schools and communities which are located very nearby. My mother-in-law just purchased a home in an adult active community within a mile of the rail line - this community is full of seniors who should be enjoying their retirement and their community without being exposed to the constant noise and pollution caused by the significant increase of train traffic through our community. Please deny the acquisition by the Canadian National railway.
