### Transcript:

I'm calling to voice my objection to the Canadian National Railway coming through and adding a new track and transporting hazardous wastes and uh tying up an even more, even already congested area even worse than what it currently is. Um, I think it would be a very bad move to have that railroad coming through with, I think it's approximately 42 trains per day. Um, like I said, it gets backed up completely with just the amount of trains that go through already and I have a family and I've lived here for 8 years and I don't think it's good for our community. Thank you. Bye bye
