1. The noise pollution from this would be too much!
2. The traffic mess that would be created too much!
3. People wouldn't be able to get to the hospital in a timely manner.
4. The potential of environment destruction: Air quality & possible pollution of the water table (in case of accident) etc. + 3. Visual pollution & Noise
5. Children would be faced with a very different environment - going to & from school etc. (and visual pollution)
6. This semi-rural quiet area would be essentially changed & destroyed - even if accommodation made to crossings.
7. Property values will go down.

8. Government should, in my opinion, protect ^(citizens) people, not destroy their environment because of pressure from another community, or private enterprise! A moral/ethical responsibility to protect & not destroy
