1 MR. KRAMER: So I have two comments. One

2 is about the process. And that is I think
3 that the STB could have found a high school
4 closer to the rail line than this high
5 school is. There is one about a half a
6 mile away from the rail.

7 My second comment is about noise
8 issues. My main concern with the noise
9 issue right now is the engines. And I
10 would be interested to hear what would be
11 done to reduce engine noise through this
12 transition from EJ&E to CN.
