Dear Board *taken 10th June 15*

The railroad will be passing a native Indian burial ground. It could affect the cemetery by its constant vibrations. This is located in Boone Grove Township.

The county park Honey Run is only five miles from the proposed tracks. Besides the usual wildlife of deer, wild turkeys, geese, cranes etc. it has nesting bald eagles! The latter need quiet to fledge and protected to have young eagles. The noise and pollution would be detrimental to them and may cause them to leave the area. Please deny the railroad's petition.

NOTE: When an individual chooses to submit an Environmental Comment or some Other Submission, his or her personal contact information is considered public information and is shared within and outside of STB without additional authorization.
