Re: **Docket No. EP 770(1) – Urgent Issues in Freight Rail Service---Railroad Reporting**

Dear Chairman Oberman, Vice Chairman Hedlund, Board Members Fuchs, Primus, and Schultz,

Per the Surface Transportation Board's May 5, 2022 decision, Union Pacific is respectfully enclosing its fortieth weekly report on the following performance metrics:

1. Weekly Average Terminal Dwell Times for the eleventh to twentieth largest terminals;
2. Weekly Average Number of Train Starts Per Day (sorted by train type);
3. Inventory breakdown by privately-owned, TTX-owned, and railroad-owned cars;¹
4. Weekly average recrew rate and rate for each "operating division;"
5. Industry Spot & Pull percentage for the system and each "operating division;"
6. Weekly average number of local (L) trains cancelled per day and the aggregate number of local trains cancelled per week, broken down by cause (crew and others);² and,

¹ Union Pacific is actively auditing this metric. Union Pacific may amend the data for this metric later after completing its quality control review.

² Union Pacific does not track data surrounding locomotive power in this metric. Therefore, this value is "0" on the spreadsheet.
