Environmental Impact Statement

Comment Form

Draft Environmental Impact Statement for the
Proposed Canadian National Railway Company
Acquisition of the Elgin, Joliet and Eastern Railway
Company

STB Finance Docket No. 35087

Date: 28 Aug 2008

Comments must be submitted by September 30, 2008.

Safety... Safety... Safety... Safety

Our community is diverse in age, young and old. Both are going to be greatly impacted. Young - the rail lines run along parks, school byways and backyards. How does CN plan to keep young children safe?

Order: When train (2 miles long) block all the major roads in Barrington, how will emergency vehicles get through? The hospital is north of town and increasing traffic will cause increased time of transport in life threatening situations. Time is crucial in many medical emergencies - how does a EMT vehicle get through town with all crossing closed by trains? With it happening up to 22x's a day how many people will die waiting to get to the hospital for care?

Does CN care about the lives that will be lost?

How does this benefit my community? If only benefits CN, we get all the down side?

YOUR INPUT IS IMPORTANT!
