

Jan. 9, 200.

Please, listen to the citizens and officials of the Villages of Barrington Area. This sale ^{to} and schedule of the Canadian Train Co would devastate our villages and countryside.

Traffic (buses, emergency vehicles, workers, shoppers) would be paralyzed by the number of loud freight trains rambling thru the many crossings in the villages. Our world ~~be~~ come to a stand still.

Homes adjacent or near tracks would endure the noise pollution and the lack of access to their neighborhoods due to frequent train schedules.

Potential residents would be fools to consider Barrington ripe with ~~problems~~ devastating problems caused by this train traffic. Of course homes, lands, businesses would be devalued. Residents would be unable to sell properties.

If they believe the Canadian Train Company can relieve the traffic problems with over or underpasses, the construction would be devastating. The noise would not be relieved!

How can it even be considered -
to destroy a prosperous village
like Barrington.

Please, do not tell us this
is a done deal. There must be
an alternation. Our village
will DIE. The citizens will
suffer in every possible
avenue.

Please listen — and act.

Sincerely,
Connie and Jay
Blomquist
