Dear Phyllis Johnson-Ball!

The purchase of the EJ&E railroad line by Canadian National around the Chicago area is totally unacceptable. It will forever change our communities of Frankfort, Mokena and New Lenox in a negative way. I am sick and tired of a foreign country intruding into the USA and taking our land. CN has offered nothing to get this land and is arrogant as well. They are an example of what is going on today to take what they can and totally disregard the American family and its values. How about building overpasses? How about offering anything positive to make the change better for the people of our communities? They should move their railroad about 50 miles west, acquire farm land and build tracks on open land and let new communities and businesses develop there. STOP MESSING WITH OUR WELL PLANNED COMMUNITIES!!!!!!!!!!!!!!!!!!!!!!!!!!!!

Deeks Carroll – Mokena, Illinois
