

Environmental Impact Statement

Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

Date: 8/28/08

It shouldn't go through because it will cause a lot of traffic, it will hurt our local barrington environment, many people won't even be able to get out of their driveway getting to and from the high school would be very hard. It will also lower the value of Barrington property, we have had multiple deaths recently due to trains, this is only going to cause more accidents.

[illegible]

Joliet
