Transcript:

I live about a quarter mile away from this Canadian National and I just wanted to say that this is going to cause terrible EMS disruption, if we have to go to the hospital how are we going to get through the train? The closest hospital, it will cause disruption that way. We also need emergency services of any kind, this will cause a problem and it's going to happen every hour, multiple times every hour that the Candian National is going to be going by our home, and you know, they just go and do this and nobody does anything. Like they sell a car, but it isn't selling a car, it's selling our neighborhood, millions of people will be affected by this and it's frustrating this thing that this <undecernable>. Someone could be affected by this, but absolutely no one cares.
