Phone: 847-382-0977

E-Mail: binder-kennedy@sbcglobal.net

How will CN's proposed acquisition of the EJ&E impact you?

As a resident of Barrington I depend on
Rt 59 and Northwest Highway for my
commute to work every day. This commute
include the crossing of the EJ&E rail
line. These major roadways process
thousands of commuters each day and
an increase in the congestion will cause
complete gridlock.

In addition I am seriously concerned about
safety. The tracks cut through the
center of the village - fire rescue, ambulances,
and police vehicles would be prevented
from responding in a timely manner - a direct
safety issue for me and for our community.

and air pollution are other serious issues.
I do not support the CN Railroad's
acquisition of the EJ&E rail line.
