Dated: May 23, 2007

SUPPLEMENT TO ENVIRONMENTAL/HISTORIC REPORT

On May 8, 2007, Pittsburg & Shawmut Railroad, LLC ("PSR") filed a joint Environmental / Historic Report together with Shannon Transport, Inc. ("ST") which proposes to abandon a line of railroad that connects to the lines that ST seeks to abandon, and with Buffalo & Pittsburgh Railroad, Inc. ("BPRR") which proposes to discontinue operations over both the ST and PSR lines. PSR is filing this Supplement in order make it easier for the public to distinguish between the PSR line and the ST lines. Further, this Supplement will discuss how the comments that were received relate to the PSR line.[1]

PSR is seeking authority to abandon the line or railroad between milepost 41.95 in Brookville, Jefferson County, PA, and milepost 6.0 at or near Lawsonham, Clarion County, PA (the "PSR Line"), a total distance of 35.95 miles. The PSR Line traverses through United States Postal ZIP Codes 15864, 16216 and 16242. A map of the PSR Line, as well the related topographic maps, are attached hereto as Exhibit 1.

Environmental Supplement

Of the responses attached as Exhibit B to the Environmental/Historic Report, the following relate, or potentially relate, to the PSR Line:

> Pennsylvania Department of Environmental Protection (Northwest Regional Office), March 1, 2007, describing potential requirements for watershed management and handling of rail material waste
>
> Pennsylvania Department of Conservation and Natural Resources, March 12, 2007, expressing support for trail use
>
> Pennsylvania Department of Environmental Protection (Coastal Resources Management Program), February 16, 2007, confirming the PSR Line is not within a coastal zone

---

[1] ST will separately file its own Supplement to the Environmental/Historic Report with respect to the lines that ST owns. BPRR, as the operator, will not file a supplement.

USDA Natural Resources Conservation Service (PA State Conservationist), March 5, 2007, confirming that no federally-designated farmlands exist in the proposed project area

Pennsylvania Fish and Boat Commission (Northcentral Region), March 12, 2007, requesting that any salvage operations avoid run-off and erosion, and requesting improved public access to its property along Red Bank Creek (adjacent to thePSR Line)

PSR incorporates the responses to these comments set forth in the Environmental/Historic Report.

Since the filing of the Environmental/Historic Report, PSR has had discussions with a trail group that has expressed interest in acquiring the PSR Line as an extension of an existing trail.

Historic Supplement

The structures 50 years old or older that are located along the PSR Line are separately identified on Exhibit 2. Photographs of the structures identified by milepost are attached as Exhibit H to the Environmental/Historic Report.

PSR will provide additional clarification to the Board and to any party that requests further information to determine the environmental or historic effects of the proposed abandonment of the PSR Line.

Respectfully submitted,

ERIC M. HOCKY
