Subject: Eagle County comments on Uinta Basin Railway EIS

Ms. Hedlund,

Good morning. Surface Transportation Board Chairman Marty Oberman's office asked me to reach out to you regarding comments submitted by Eagle County, Colorado on the Draft Environmental Impact Statement for the proposed Uinta Basin Railway. I understand that you have not been able to access these comments on the Board's website.

You may be aware that the Board's Office of Environmental Analysis maintains a project website for the Uinta Basin Railway EIS at www.uintabasinrailwayeis.com. This website includes the Draft EIS, supporting documents, project updates, interactive maps of the proposed rail line, and other project information in one place. All public comments on the Draft EIS can be viewed on this project website under the Public Involvement tab.

In case it is helpful, here is the direct link to the public comment page:

<http://www.uintabasinrailwayeis.com/Comments.aspx>

And, here is the direct link to the comments from Eagle County, which were included in the February 18, 2021 website update: http://www.uintabasinrailwayeis.com/comment_submissions/UBR-DEIS-00703.html

All public comments on the Draft EIS will eventually be migrated over to the Board's website (www.stb.gov) as environmental comments under Docket No. FD 36284. Since this migration takes some time, they will continue to be available on the project website throughout the remainder of the environmental review process. I hope this information is helpful. Please feel free to reach out to me if you have additional questions about the public involvement process for the Uinta Basin Railway EIS.

Best,
Josh Wayland
