Dear STB,

The effect of this CN acquisition will be horrible for ~~the~~ family. We are only 1/4 mile from tracks the increased noise pollution and vibrations will have an effect on our day to day recreation. The increased traffic will force us to forgo local Barrington business in favor of either internet companies or other villages. We are worried about the health of our family esp. our little girl who has leukemia and will have additional traffic (possible blockage) to immediate health care.

This acquisition is going to cause a massive re-distribution of wealth for Barrington, reducing our house value and life style while an enormous windfall for the communities that have adjusted to congested train traffic. They already have satisfactory ways to get to school, stores and access to emergency services. Their homes and other properties have been priced to reflect the reality of the traffic conditions with which they live.

I don't understand how a foreign company is getting the right to destroy our community!
