SUPPLEMENTAL INFORMATION: RETAC was established by the Board on September 24, 2007, to provide advice and guidance to the Board, on a continuing basis, and to provide a forum for the discussion of emerging issues and concerns regarding the transportation by rail of energy resources, including, but not necessarily limited to, coal

and biofuels (such as ethanol), and petroleum. RETAC functions solely as an advisory body and complies with the provisions of FACA and its implementing regulations.

RETAC consists of up to 25 voting members, excluding the governmental representatives. The membership comprises a balanced representation of individuals experienced in issues affecting the transportation of energy resources, including not less than: 5 representatives from the Class I railroads; 3 representatives from Class II and III railroads; 3 representatives from coal producers; 5 representatives from electric utilities (including at least one rural electric cooperative and one state- or municipally-owned utility); 4 representatives from biofuel feedstock growers or providers, and biofuel refiners, processors, and distributors; 2 representatives from private car owners, car lessors, or car manufacturers; and, 1 representative from the petroleum shipping industry. The Committee may also include up to 2 members with relevant experience but not necessarily affiliated with one of the aforementioned industries or sectors. All voting members of the Committee serve in a representative capacity on behalf of their respective industry or stakeholder group. STB Board Members are ex officio (non-voting) members of RETAC. Representatives from the U.S. Departments of Agriculture, Energy, and Transportation and the Federal Energy Regulatory Commission may be invited to serve on the Committee in an advisory capacity as ex officio (non-voting) members.

RETAC meets at least twice a year, and meetings are open to the public, consistent with the Government in the Sunshine Act, P. L. 94-409.
