Message: I am appealing to your agency to consider seriously not allowing this transaction to happen. There are many issues in our area that I feel are not adequately addressed. The growth that the Frankfort area is experiencing will be taxing as is but increasing the length and time of the trains will definitely hurt the area in a drastic way. Safety being the top issue; emergency response will be severely compromised due to the configuration of our town and the railroad tracks. This needs to be thoroughly thought out before any approval is granted.
