Message: I am writing to express my sincere concern with the proposed increase in freight traffic in my area. While I do not have children at this time, I do plan to start a family soon and the increased danger could well drive my family out of the area. Regardless, I am concerned that the increase will not only make my daily commute more difficult (I have already experienced several long delays due to rail blockages when I am stuck on the street for nearly an hour when I'm less than a mile from my house) but it will also drastically drive down the property values in the area. Living on Diamond Lake and using well water, I am also concerned about the environmental contamination of the water supply.

I thank you for your time and consideration of this and many other concerns felt by my neighbors and friends.
