

# Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

Date: 8/27/08

We are greatly concerned about the impact of this acquisition on the quality of life for citizens of our town & surrounding neighborhoods. We already have problems with traffic & congestion in Barrington & these will only increase with more rail traffic through town. Our local businesses will suffer greatly. Property values will be adversely affected. Most importantly, emergency vehicles will be delayed. ~~The~~ Quality of life should be a greater priority than profit.

[illegible]

## Joliet
