How will CN's proposed acquisition of the EJ&E impact you?

1) The traffic congestion in our surrounding areas is already at a critical level - it is near impossible to get around - so is the alternative to leave this area - another facet of economic impact

2) I am anxious about the position of Major Daily - I understand he supports this in order to move the yards out of the city. Well Major Daily - if I cannot get to the city to spend my hard earned money there - I will spend it somewhere else!

3) Unless billions are spent to handle the infrastructure needs - FORGET IT!
