

Environmental Impact Statement

Draft Environmental Impact Statement for the Proposed Canadian National Railway Company Acquisition of the Elgin, Joliet and Eastern Railway Company

Date: 8/29/08

If this transaction comes to pass, I believe Barrington will eventually become a veritable ghost town.

Property values will plummet

Ambulances won't be able to get to the hospital and lives will be lost.

School schedules will become impossible with buses unable to get the kids to school.

Commuters won't be able to reliably get to work in a reasonable time.

In short, Barrington will no longer be a desirable place to live and raise your family. What an awful dirty shame that would be
