Adding additional trains near my home would add additional time for me and all residents for daily activities: work travel, shopping, doctor visits. Most important would be the impact for emergency services. The trains currently block both main streets to my area: Division + Gaylord, Joliet, IL. Since Joliet would be an end point, they are sure to slow at these intersections.

Regardless of the financial pluses this would add to any economy, the risk of health and welfare is greater. Otherwise, overpass need to be installed throughout Will County to remediate the impact.

We in the ~~suburbs~~ suburbs cannot continue to accept the unwanted business or traffic that Chicago is trying to rid while they continue to take our tax dollars.
