Comment Form

Draft Environmental Impact Statement for the
Proposed Canadian National Railway Company
Acquisition of the Elgin, Joliet and Eastern Railway
Company

STB Finance Docket No. 35087

Date: 8/27/08

Comments must be submitted by September 30, 2008.

The impact of the CN Railway
purchase of the tracks which go
through Barrington will create
extreme undue hardship and
safety concerns for the citizens.

- School buses will have to wait for long periods to cross the tracks
- high school students who walk or drive will be at greater risk because of all of the rail traffic.
- traffic flow will be hampered - people trying to drive on our Main Street will be in major traffic congestion - All the time!
- CN has not agreed to pay for all of the costs of building an overpass which causes more concern in higher taxes on local citizens.
- Property values decrease with more train traffic
- The biggest concern is for safety because emergency vehicles will not be able to get through.

YOUR INPUT IS IMPORTANT!
